

**Environmental Engineering Laboratory
Civil Engineering Department
Indian Institute of Technology Roorkee**

A. Analysis of samples delivered at the laboratory

Rates

- | | |
|--|---------------------------|
| 1. Routine Testing in Laboratory
(for a set containing 4 samples) | |
| (a) Drinking Water (12 parameters) | Rs. 12,000.00 per set |
| (b) Waste Water (8 parameters) | Rs. 15,000.00 per set |
| 2. TOC analysis | Rs. 500.00/Sample |
| 3. Analysis through IC | Rs. 500/Sample /Ion |
| 4. Analysis through AAS | Rs. 500.00/Sample/metal |
| 5. Flame Photometer
(potassium, lithium, calcium, magnesium) | Rs. 500.00/Sample/element |

B. Sample collection and analysis

- | | |
|---|-----------------------------|
| 1. Collection of water/wastewater sample
from site and laboratory analysis | Rs. 1,25,000.00 (per visit) |
| 2. Air monitoring at Site and
analysis in laboratory | Rs. 1,25,000.00 (per visit) |

C. Pharmaceuticals, Pesticides and Insecticides (for samples delivered at IIT Roorkee)

- | | |
|--|---|
| 1. Screening against unknown compounds | Rs. 10000.00 per sample (using UPLC-QToF) |
| 2. Determination of specific compound | Rs. 5000.00 per sample per compound (Standard to be provided by the party or Standard cost shall be additional) |

Terms & Conditions

1. GST as applicable will be charged extra
2. Material and on-site assistance will be supplied by the client. Charges will be borne by the client for the same.
3. The rates are valid for distance within 150 Km. Beyond 150 Km or in hilly terrain, the rates will be on case to case basis.
4. Travel and boarding & lodging, if so required, will be chargeable to the client.
5. All works will be governed by IIT Roorkee consultancy rules.
6. Above mentioned rates will be reviewed after three years.
